

HEATHER ROSS

WEB DEVELOPER

EXPERIENCE

Web Designer and Editor, *Freelance*

APR 2013 - DEC 2020

- Developed websites from mockups, wireframes and Photoshop designs using HTML, CSS, JQuery and Javascript.
- Customized Wordpress themes into unique designs.
- Designed logos and banner ads.
- Provided website hosting, content editing, and copywriting services.
- Organized workshops teaching clientele and their associates how to edit and maintain their websites and social media accounts.
- Provided monthly maintenance packages to new and existing customers to keep their website content up-to-date.

PROJECTS

hross.dev - *My Portfolio Website*

June 2021 - [View Project](#)

Design and layout built from scratch, using HTML5, SCSS and pure JavaScript. Logos were created with Photoshop.

CIMA Enoteca - *Website Redesign*

MAY 2021 - [View Project](#)

A fresh design using React, with an admin section to upload new menus, login page, add users, and reset password using Firebase authentication.

InStock - *Agile Team School Project*

APR 2021 - [View Project](#)

Using Jira Scrum board and GitHub version control to manage our progress, using Node.js, React and Express.js we built a full-stack warehouse and inventory data management system.

Mastercard Hackathon - *Winning Team*

APR 2021 - [View Project](#)

Part of the winning team for Brainstation and Mastercard's 24-hour, cross-discipline hackathon with Web Development, UX Design, Data Science, and Digital Marketing students.

Brainflix - *School Project*

MAR 2021 - [View Project](#)

A full stack React App prototype for a mock video streaming platform using an API to obtain image data, with comment posting functionality.

Bandsite - *School Project*

MAR 2021 - [View Project](#)

Built using JavaScript DOM manipulation, pulling data from an external API, with comment posting, delete and like functionality.

PROFILE

I am a Web Developer and Web Designer, well versed in creating pixel-perfect designs and dynamic web applications using HTML5, CSS, SASS/SCSS, Javascript, REACT, Node and Express. With two bootcamps under my belt, I am highly adaptable and thrive on change and continuous learning.

My extensive experience in the hospitality industry helped shape my determined work ethic. I have a genuine desire to exceed the expectations of customers and clients, and am committed to ensuring the success of the business and service teams in the most efficient ways possible.

SKILLS

Front-end: HTML5, CSS3, BEM, SCSS, CSS Animations, Responsive Web Design, Wordpress, JavaScript, ES6, , Document Object Model (DOM) APIs, REACT JS.

Back-end: Node JS, Express JS, REST APIs, User Authentication, Firebase.

Development Tools: NPM, Webpack, Github, Visual Studio Code.

Design Tools: Adobe Photoshop and Illustrator, Figma.

Other: Agile Methodologies, Jira, MacOS.
